Subject EPA in Anchorage

Message Body

Dear Ms. Jackson,

Thank you for the response that you could not make it to our meeting in Iliamna, especially since Pebble is only 15 miles away from my Village. We were very disappointed you made a trip to Dillingham Alaska which is 150 miles away from the Pebble Project to talk about Pebble but could not make it to our community. Hopefully, you will see that our voices are important too. We invited the Anchorage EPA and they did not respond they could make our conference in Newhalen November 12th or the 13th either.
